

KOSHIN 2", 1/2 HP SUBMERSIBLE PUMP

PX-65011

Features

- Unique design permits either vertical or horizontal discharge.
- Impeller and casing are manufactured from a blended rubber compound providing maximum wear resistance, up to three times over cast iron.
- Water is channeled through the outer wall to cool the motor for maximum endurance.
- It is compact, light-weight, easy to carry and handle.
- Due to double mechanical seal employed for the shaft, and the SIC at bottom, the shaft hardly wears out and can be used over a long period of time.
- Liquid paraffin is used in the shaft seal, therefore water will not be contaminated even in the case of oil leakage.
- The cord is of uni-body construction ensuring excellent water tightness.
- The built-in thermal protector turns off the power supply in case of overload operation thus protecting the motor.

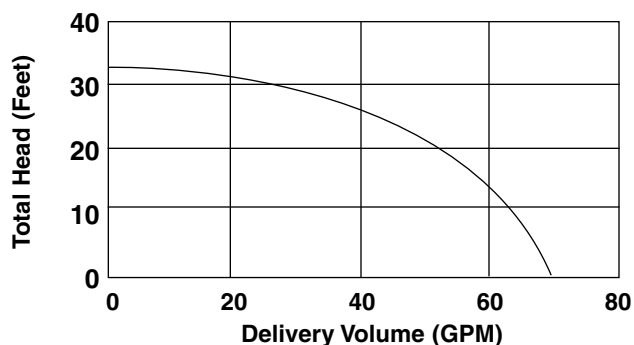

Applications

- Construction site, excavations, well casings and general dewatering.
- Utilities, manhole and vault draining.
- Residential, draining of basements, crawl spaces and swimming pools.

Specifications

Model	PX-65011
Discharge Size	2"
Motor Output	1/2 HP
Delivery Volume	68.5 GPM
Total Head	32.8 Ft.
Voltage	110 V
Rated Current	6.5 Amps
Cable Length	19.7 Ft.
Net Weight	24 Lbs.
