# Our Rental Equipment Makes Your Project Easier

**Robinsons makes working in high places easy.**

**We rent ladders and scaffolding, and even have a variety of scissor and boom lifts for those jobs where you need to get things done quickly and safely.**

### Deere Loaders

There are times when it takes a big machine to handle a big job. Our John Deere loaders are the perfect choice for heavy duty loading, unloading and earth moving. We offer wheeled and more powerful tracked versions.

### Mini Excavator

Our Mini Excavator allows you to sit in the operator's seat while you tackle big jobs in small spaces. Providing a digging depth of almost 8' and a dumping height of over 9', this is the little machine that could!

### Backhoe Loader

A backhoe is a versatile tool that can accomplish many tasks ranging from digging, loading and lifting. Backhoes are handy to use when you want to excavate for footings or a foundation, or if you want to install underground utilities ranging from electrical conduit to water or sewer lines. A backhoe loader can quickly dig a utility or drainage ditch, move loads of dirt, stone, debris or other material.

### Boom Lift - Trailer

The trailer-mounted boom lift provides 42' of working height and 32' of outreach and features an automatic, self-leveling hydraulic outrigger system that allows for setup in 30 seconds when all four outriggers are deployed simultaneously.

### Boom Lift - Self-Propelled

Our self propelled boom lift features a hydraulic lift system with industry-leading leveling capability that allows you to set up and begin operation in under 30 seconds. Our self propelled boom lift gives you a working height of 51' and a horizontal outreach of 27'.

### Scissor Lift

Our compact scissor lifts fit through most standard size doors with a small turning radius to maneuver in tight areas. We offer a working height of up to 32'.

### Wood Chippers, Brush Chippers, Stump Grinders, Chainsaws

You can save money and get the job done faster when you clean-up your yard yourself. We rent the chainsaws, brush chippers, wood chippers and stump grinders you need to get a professional job done, at a Do-It-Yourself price. Our tree care machines are all top of the line, professional grade. They are easy to use (we're happy to show you how!) and we can even deliver them to you!

### Scaffold and Ladders

We offer a variety of options to help you get to tough to reach spaces. Whether its an extension ladder (up to 48') or scaffolding, we have what you need to get the job done faster, easier and safer!

### Yard Care

#### Caring for your lawn starts right now! It's a simple four step process:

Dethatch your lawn to remove the matted material that prevents sunlight, moisture and nutrients from being absorbed and helps promote mold and mildew.

Aerate your lawn to allow moisture and nutrients to better penetrate the soil, which promotes better root growth and makes your lawn more drought tolerant. Aeration also allows your lawn to continue growing rather than choking itself out.

Overseed your lawn to fill in bare areas and provide seed to strengthen and invigorate your lawn.

Feed your lawn with nutrients including fertilizer and water.

# Make your driveway look its best.
